

WL-D2 Long-Range Hidden Wireless Charger

10 W Qi · under-top hidden mount · charges through up to 25 mm of stone or timber

PRODUCT FEATURES

- Hidden under the top — no cut-out, no trim ring, top stays intact
- Charges through up to 25 mm of marble, timber or plastic (best at 10–15 mm)
- 10 W Qi wireless charging, 105–205 kHz
- Adhesive or screw fixing under the surface; 1.5 m lead to the furniture supply
- Over-current and over-temperature protection on a smart control chip

The charger nobody sees. Fixed under the nightstand top — marble, timber or solid surface — it charges the phone laid flat on top of the surface, up to 25 mm away. No cut-out, no trim, no hole in the stone: the top stays exactly as the designer drew it.

SPECIFICATION

Model	WL-D2
Housing	ABS, textured, black
Size (Ø × H)	Ø 105 × 10 mm
Mounting	Under the top — adhesive pad or screws, no cut-out
Surface	Marble · timber · plastic (non-metal tops)
Standard	Qi wireless charging · 105–205 kHz
